35 Awards

** **35 awards** refers to the following versions of MAGIX Movie Edit Pro (Classic & PLUS versions): 6, 7, 8, 9, 10, 11, 12. Award wins from other countries refer to the country-specific version. More information at www.magix.com.

The perfect video in just 3 simple steps!

With MAGIX Movie Edit Pro 14 you can transform your best video recordings into exciting theater-quality films, including background music, animated transitions, text and special effects – in just 3 steps!

Simply add fitting music, professional fades, and select effects: The comfortable interface, advanced automations, and handy assistants guarantee perfect results at lightning speed! This way you can have more time to watch and enjoy your videos on TV, on mobile video players, or on the web!

Reads videos from any source: (HDV) camcorder, DVD recorder, webcams, digicams, cell phones, etc.

Dolby$^®$ Digital Sound: Burn without recalculation.

If you own a Dolby$^®$ Digital stereo, this is great news: Videos with Dolby$^®$ Digital sound (2.0 Stereo or 5.1 Surround) can be burned directly to disc using MAGIX Movie Edit pro 14 without lengthy recalculations. Specially developed MAGIX ProAudio technology makes it possible!

New! Put videos directly on YouTube^{TM}

Would you like to present your videos online? Export your clips directly from Movie Edit Pro 14 to YouTube^{TM} and become an active member in the biggest video community in the world. It's easy – just a few mouse clicks and you are done. Your video is online and can be viewed around the whole world!
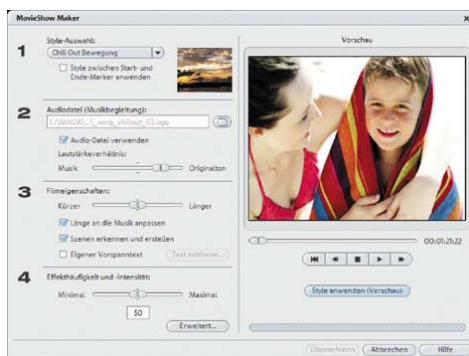

New! EasyBurn Mode

Even faster and easier: We've simplified the integrated burn function even more so that you can enjoy your videos on TV even faster. The new EasyBurn Mode puts you directly in touch with the most important settings for your personal video DVD even faster. Simply select a suitable menu and your video is ready to be burned onto disc for eternity!

New! Automatically create DVD menus with images from your own project

Unique and only from MAGIX: Using motifs from your video project you can automatically create DVD menus indistinguishable from those found on store-bought movie DVDs in just minutes. A selection of high-quality animation effects ensures lots of variety in your menu composition. Amaze your family, friends, and neighbors with your creative results – can also be given as a personalized gift!

Automatic editing: 15 themes to choose from

Do you have minimal or nonexistent video editing experience? MAGIX MovieShow Maker turns your videos with just one click into fantastic movies. Choose from 15 thematically sorted motifs, and the rest happens automatically. Lean back, relax, and enjoy perfect results: Impressive effects, professional cuts, and harmonic transitions. Video editing has never been so easy!

New! Optimized scene recognition

Now better than ever: Retroactive scene recognition for existing video material has been optimized even more. New, intelligent timecode analysis recognizes scenes even more exactly for optimum navigation throughout your videos!

New! Batch converting

Do you want to process multiple video files into another format in one go? No problem! Mark as many files in a folder as you want with the comfortable batch processing feature and start conversion. Presto!

New! MAGIX Screenshare

Share the contents of your screen (videos, photos, music, etc.) with other users – LIVE. Programs connected over the Internet can be used together, and if you want, contents can be shared and PCs can even be remotely controlled – just the thing if you need to show someone tips & tricks quickly!

New! Support for NextGen games consoles

With MAGIX Movie Edit Pro 14 PLUS you can turn your games console into a digital video player: simply export your videos in a format supported by your console and enjoy your videos in the highest quality on your TV!

TV & Media Center, including digital video recorder

Never again miss a thing! Watch all your favorite TV sitcoms, feature films, music videos with the help of a PC remote control without leaving your sofa. With the integrated TV & Media Center you can easily capture anything you like! Analog as well as DVB-T/S cards and sticks for digital TV are supported. Annoying ad blocks can be removed with the TV ad remover. This can even be done automatically during TV recording – for uninterrupted TV enjoyment!

Online extras

Catooh – the Online Content Library

You'll find everything you need right here! A giant download archive of high-quality media offers everything you could ever desire – including useful preview function for all files. Enrich your media projects with arty DVD menus, moody background music, exclusive sounds, photos, videos, and much more. **New!** Sell your media on Catooh: Simply register, upload media, and earn money!

New! Live user chat & knowledge portal

Integrated live user chat offers you the possibility to exchange with other users immediately and without time delay. Just launch the communicator, enter your question, and wait for the answer online.

If that doesn't help, then take a look at the new online knowledge portal: Lots of topics, even more info, even more knowledge!

Advanced functions

- **New! Web DVD projects:** Present video projects online as an interactive web DVD – including animated menus!
- **New! Noticeably smoother performance** on PCs with Dual Core processors and/or GPU support.
- **New! Use animated Internet graphics**, ClipArts, etc. as decorative elements (animated GIF Import)
- **New! Enhance landscape photos with creative effects** (Avoids black bars, etc.)
- **Present videos in the MAGIX Community** and meet other users with similar interests
